FTI-NSP1: Vehicle Coverage and Preparation Notes

Make	Model	Year	Install	CAN	Lights	ВСМ	Locks	Clutch
DL-NI5 Nissan	Altima Sedan PTS AT	2009-12	Туре1	CAN A	RED/BLU	BIC	Туре В	Clutch Assembly

Type 1 installation requires **BLADE-AL(DL)-NI5** firmware, flash module and update the controller before installing.

NI-LOCK harness configuration: Lock connections for Intelli-key vehicles are type B, secure unused connectors for safety.

RAP Shutdown: Pre-wired in NI-LOCK harness to driver's door pin at BCM, connect **CM POC** configured for RAP to *orange/white* wire in **NI-LOCK** harness.

PARKING LIGHTS: Positive parking lights are available at the fuse junction panel red/blue in the 10-pin connector, pin #8.

NI-LOCK/NI5 Behavior and wiring options: NI-LOCK accessory harness is capable of providing connection to ARM & DISARM (lock A, B, or C), and RAP (org/wht).

NI5 firmware is capable of providing control over the factory alarm, automatically disarming the alarm when remote start is engaged, by providing ignition and immobilizer data emulating key presence. The alarm will disarm when needed but will not rearm at the end of a remote start session, so this must also be considered. No additional arm/disarm wiring is required, but upon a normal unlock using aftermarket remotes the instrument cluster will illuminate as a result of ignition activity. If this activity is an issue, mandatory connection of the arm/disarm wires at the BCM is required, as well as using the circuit jumper in note [B] of the installation diagram.

FTI-NSP1: Installation and Configuration Notes

- A CONNECTION REQUIRED SEE BRAKE 1/2 NOTE ON NEXT PAGE
- **B** NOT REQUIRED SEE FIRMWARE NOTE ABOVE
- C REQUIRED CONNECTION
- D CONFIGURE AND CONNECT AS ILLUSTRATED
- E REQUIRED CONNECTION

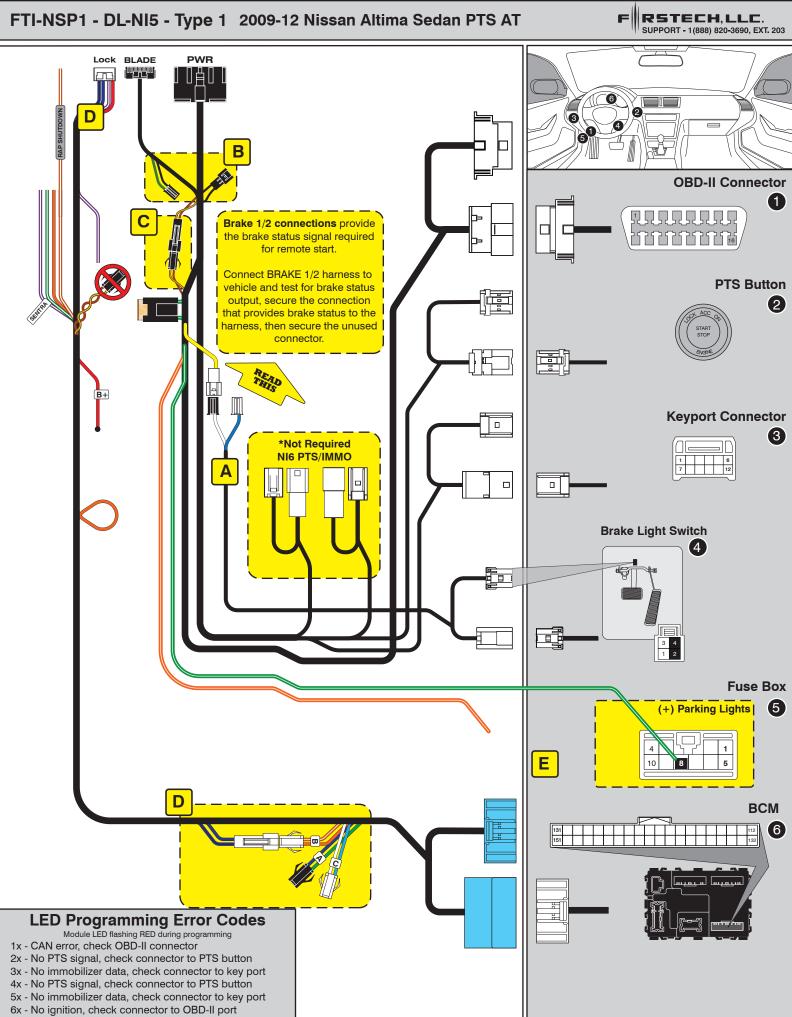

FT-DAS Required for manual transmission.

 BOTH Red & Red/White MUST be connected with high current application.

WARNING: READ BEFORE REMOTE STARTING THE VEHICLE

IMPORTANT

I All vehicle doors must be closed and locked prior to remote start sequence. Failure to comply will result in remote starter malfunction.

TAKE OVER PROCEDURE - PUSH TO START - TO THE VEHICLE OWNER

NOTE

I All vehicle doors must be closed and locked prior to remote start sequence.

TIME RESTRICTI ON COMING UP !

Unlock vehicle door using OEM or after-market remote, or door request switch.
